The listed year of birth (1834) is probably wrong. In all census records from 1850 thru 1910 Eliza's age ends in either 2 or 3 making her born in either 1837 or 1838. The age listed also doesn't calculate with the birth date listed. Since the census ages were consistent over a 60 year period, it seems more likely that she was born in either 1837 or 1838.
